क्या होगा ट्रंप का अगला कदम? शेयर बाजार, गोल्ड और निर्यात पर रहेगी नजर: एक्सपर्ट

Akhilesh.Singh1@timesofindia.com

■ नई दिल्ली : अमेरिकी राष्ट्रपति के रूप में डोनाल्ड ट्रंप के दूसरे कार्यकाल को लेकर शेयर बाजार से लेकर व्यापार तक के मोर्चे पर विशेषज्ञ सतर्कता बरतने की बात कर रहे हैं। उनका कहना है कि भारत, चीन सहित विश्व से आने वाले माल पर आयात शुल्क बढ़ाने, मेक इन अमेरिका को बढ़ावा देने और अमेरिका में टैक्स रेट घटाने की जो बातें ट्रंप ने की हैं, उनका असर शेयर बाजार और गोल्ड पर पहले से दिख रहा है और आने वाले समय में यह क्या कदम उठाते हैं, इस पर नजर रखनी होगी।

शेयर बाजार पर असर

राष्ट्रमन्त्र केशव प्रसाद बिस्मिल के डायरेक्टर समीर रस्तोगी ने कस, 'ट्रंप जब तक चीन के साथ मजबूत रोलें नहीं करके, अनिश्चितता बनी रहेगी। उनकी संघर्षात्मक नीतियां महंगाई बढ़ाने वाली हैं। लिक्विडिटी अभी फेड के रेट घटाने का चांस नहीं है। यह इंडियन मार्केट के लिए पॉजिटिव बात नहीं है।'

गोल्ड पर असर

समीर रस्तोगी ने कस, 'अगर डॉलर में नमी आती है तो यह गोल्ड के लिए अच्छा होगा। जैसी अनिश्चितता दिख रही है, उससे गोल्ड का आइटम पॉजिटिव है। फेडिया फिन्कॉर्प के फाउंडर नितीन केडिया ने कस, 'लॉन्ग टर्म में गोल्ड 2500 से 2800 डॉलर प्रति औंस तक जा सकता है। हालांकि फिन्कट गभिर ने इसके 2350 से 2470 डॉलर की रेंज में आने का अनुमान है। इन लेक्चर पर खरीदारी की जा सकती है।'

त्स्वीर साफ होने तक सतर्कता जरूरी

अमेरिका में नैचुरैल गैस की बढ़ने के ट्रंप के फोर्कस के चलते चीन के साथ भारत को भी अपनी नीतियां बदलनी पड़ सकती हैं। लेकिन ट्रंप के चीन विरोधी रुख से अमेरिकी कंपनियों भारत से ज्यादा महत्वपूर्ण शुल्क कर सकती हैं। शेयर बाजार में डॉलर और डॉलर के अंतर के साथ भारतीय कंपनियों के मुद्दों की रक्षा भी अहम होगी, जिसका रिस्क इंडियन इकोनमी की ग्रोथ से जुड़ा है। ग्रोथ बढ़े, इस्करे लिए आग बजट में उपाय किए जाएंगे। लिक्विडिटी निवेशकों को इंडिस्ट्रियल में पड़ने के बजाय सतर्क बरतनी चाहिए और तरसकर साफ होने का इंतजार करना चाहिए।

Bad Omens Investors should be Wary Of

From higher number of investor meets to a CEO overactive on social media, there are many signs that a co may be faltering

Kiran A Somvanshi

ET Intelligence Group: Earnings season is always a time of revelation for investors. Here are some subtle red flags that warrant higher scrutiny from investors:

SUDDEN SURGE IN INVESTORS MEETS

Most companies focus on increasing their visibility among investors in a bid to attract new investments. However, when a nondescript company suddenly starts holding a high number of investor meets and press conferences, it is time to turn cautious despite the increase in the analyst coverage of the stock.

FREQUENT ADJUSTED EARNINGS

Exceptional items are supposed to be seen exceptionally in a company's financial performance. In case they make a regular appearance, it is time for investors to take a hard look at where the company is going. One-off items can include goodwill impairment charges, write-downs, contingent liabilities, revaluation of assets and debt restructuring costs. Similarly, highlighting growth in adjusted Ebitda or other operating revenue ends up being a tactic to distract investors from the real business operations.

Elder Lodha's Macrotech Takes Younger One's Co to Court over Trademark

Kailash Babar

Mumbai: Real estate major Lodha, listed as Macrotech Developers, and helmed by Abhishek Lodha, has approached the Bombay high court seeking to restrain the House of Abhinandan Lodha (HoABL), a company established by his younger brother, from using the word 'Lodha' name in any form claiming trademark rights.

Interestingly, Macrotech Developers has also made its own MD & CEO Abhishek Lodha one of the respondents in the matter. The petition is scheduled to be heard on Tuesday. In 2015, Abhinandan Lodha separated from the Lodha Group and started his own business. This was formalised through a family settlement agreement in 2017.

According to the petition, due to non-compliance, a new agreement was signed in December 2023, which prohibited the younger brother from using names similar to 'Lodha.'

However, the pact stated if Abhinandan complies, Abhishek would allow the use of 'House of Abhinandan Lodha.'

By 2023, Lodha Group had turned into a publicly listed entity and was not a party to the agreement. The listed company as the owner of the trademark had never permitted the use of the name. The 2023 agreement was terminated due to non-compliance, nullifying any prior consent for 'House of Abhinandan Lodha', Macrotech's petition said.

According to Abhinandan Lodha, as part of a settlement, he was given 'Lodha Ventures' and 'Lodha Finservice', with the understanding that the 'Lodha' name would not be used on a standalone basis in real estate. Between 2017 and 2020, Macrotech borrowed over ₹900 crore from his companies, with the peak loan at ₹175 crores.

In 2019, he helped refinance the company and also provided corporate guarantees of ₹250 crore, personal guarantees exceeding ₹2,000 crore.

"I further even mortgaged my own flat and raised funds to support Macrotech Developers. This is all a matter of record.

All of this was done as a responsible member of the family and in the interest of the family," Abhinandan Lodha said in response to ET's query.

According to him, the genesis of the dispute is the success of his plotted land business under The House of Abhinandan Lodha. Over the last four years, the company has started projects in 16 locations, sold 12 million sq ft and has additional 38 million sq ft under development, with customers from both domestic and international markets.

"Lodha's brand has been built with lots of investment and effort over 40 years. It is critical for the company to protect its IPR and ensure that no other developer creates confusion of being similar to our brand. Our shareholders include the world's most renowned investors and one of India's largest charitable entities - we are duty bound to protect our company's valuable rights," said a Lodha spokesperson.

Be Careful

Red flags don't necessarily mean bad governance but they warrant extra scrutiny of the company

Presence of institutional investors in such companies doesn't mean that the red flags can be ignored. Safer to avoid investing in companies that display several such red flags.

The stock may do well in the short to medium term despite the presence of several red flags

hing incorrectly or prematurely, which can have punitive repercussions for the companies and stakeholders.

FREQUENT CFO/SECRETARY EXITS

Resignation of an independent director or an auditor often attracts a lot of investor attention. However, frequent or abrupt exit of a chief financial officer or company secretary merits a similar scrutiny. These are regulatory positions in a company and repeated exits may not always be for personal reasons.

Expect Another Warm Day, Air Quality Improves A Tad

Yellow Alert For Tomorrow For Moderate To Dense Fog, Light Rain

TIMES NEWS NETWORK

New Delhi: Delhiites again woke up to a warm Monday as the maximum temperature settled at 24.5 degrees Celsius, five degrees above normal—a day after the city experienced 26.1 degrees Celsius, the highest maximum temperature recorded in Jan in six years.

Maximum temperature settled at 24.5°C, five degrees above normal

A higher maximum temperature than this in Jan was recorded on Jan 21, 2019, at 28.7 degrees Celsius, according to IMD's data. The combination of bright sunshine, mild fog, and variable winds has been causing the day temperature to remain higher than the normal mark.

skies. With the sun shining bright, the day was warmer than normal," said a Met official. Another official said, "As western disturbances have been influencing the region in short intervals, consistent north-westerly winds are not blowing in the city. Consistent north-westerly winds bring cold air from snow-capped mountains to Delhi in winters, which causes the mercury to dip. However, when a

western disturbance impacts the region, the wind direction changes in Delhi."

The city also saw a warmer night. The minimum temperature was recorded at 11.4 degrees Celsius, four notches above normal. It was 9.2 degrees Celsius a day earlier. Shallow fog was recorded at Safdarjung and Palam on Monday morning. The lowest visibility was recorded at 600 metres at Safdarjung from

4.30 am to 5 am, which improved to 700 metres by 5.30 am. At Palam, the lowest visibility settled at 500 metres, which increased further in the day.

The maximum temperature is predicted to stay around 25 degrees Celsius with a partly cloudy sky on Tuesday. IMD has issued a yellow alert for Wednesday for moderate to dense fog and light rain. "Another western disturbance is expected to impact the region from Wednesday. The city may see one or two spells of light rain or thunderstorm on Wednesday evening or night and another spell of light rain on Thursday morning. Due to this scenario, the maximum temperature is likely to dip to 22 degrees Celsius on Wednesday and further to 20 and 19 degrees Celsius on Thursday and Friday," said a Met official.

Delhi's air quality, meanwhile, improved to the lower end of the very poor category with an Air Quality Index of 314 against 368 a day earlier. The air quality is likely to be in the poor category on Tuesday and very poor on Wednesday.

Cops hunt for bizman's killers with teams in Mumbai, Pune

TIMES NEWS NETWORK

New Delhi: The pursuit of tracing businessman Sunil Jain's killers has led Delhi police on a relentless chase spanning cities. Jain was shot dead in east Delhi on Dec 7. Following a trail of clues, investigators have tracked the two suspected gunmen to Mumbai and Pune, where they were caught on hotel CCTV footage, sources revealed.

Jain (L) is believed to have been the victim of a case of mistaken identity, and Hashim Baba is thought to be one of the persons involved in his murder

Multiple teams from the crime branch and special cell are now on the lookout for the duo. It's unclear whether the suspects are hiding in Mumbai or just passing through for another mission. Authorities have also sent a team to Goa in case the suspects are headed there.

The shooters have been identified as Sachin alias Golu (also known as Mukesh) and Naveen Kasana.

Jain, who was shot dead in broad daylight while returning from his morning walk in east Delhi in Dec, is believed to have been the victim of a case of mistaken identity. The murder is thought to have been orchestrated by Lawrence Bishnoi's associates, Hashim Baba and Rashid Cablewala.

Sachin's identity was confirmed after he was caught on CCTV near the crime scene. Initially, police suspected another individual named Zabeer, but later identified him as Naveen. According to investigators, Sachin, originally from Seelampur and Harsh Vihar, was the youngest of three siblings. His father worked as a painter, and Sachin initially worked at a tyre shop before turning to crime, stealing and selling mobile phones. A criminal from northeast Delhi, named Sonu, introduced him to gangster Hashim Baba and Dubai-based Rashid Cablewala in 2019. Since then, he has been working for them.

In the murder of Jain, police suspect Sachin had been looking for a man named Vishal (name changed), whose

appearance, physique, and daily routine closely resembled Jain's. The shooters, on a blue Apache motorcycle, stopped Jain, telling him his phone had fallen. They then asked if he was Vishal. When Jain denied it, the shooters drew their pistols and opened fire, a police source said.

As previously reported by TOI, the murder is believed to be connected to a double murder in the same area on Diwali night. In that incident, a man named Akash and his nephew were killed by a shooter named Anil alias Sonu Matka and a juvenile. Akash's brother, Yogesh, reportedly sought help from Cablewala and Hashim to avenge the killings. Sources say that Vishal is the father of the juvenile involved in the earlier crime.

Auto driver, teen killed in 2 incidents

An autorickshaw driver was murdered inside his vehicle in the Loha Pul area of north Delhi. Police said the victim's phone was missing, but his cash was intact. A team from the local police station arrived at the scene and found the man in the vehicle, bleeding from his lower neck area. The deceased was identified as Islam, a resident of Badaun, UP. A case of murder was registered. In a separate incident, a 16-year-old boy was stabbed to death in Dabri. Police suspect it may have been due to personal enmity. **TNN**

Security beefed up at metro stations

Security checks at all metro stations have been intensified due to security arrangements ahead of Republic Day, leading to long queues. Delhi Metro Rail Corporation has advised commuters to plan their journey accordingly. "In view of the enhanced security arrangements ahead of Republic Day on Jan 26, the security checks for passengers have been further intensified by CISF across the Metro stations till Jan 27. This might result in queues at some Metro stations especially during peak hours till this period," said Anuj Dayal, principal executive director, corporate communications, Delhi Metro. **TNN**

Delhi Bird Atlas maps avian species found across city

Kushagra Dixit @timesofindia.com

New Delhi: To locate the presence of avifauna across the diverse geographies of the city birders, in collaboration with the forest department, have created a Delhi Bird Atlas, which specifies avian species found in different areas in the city.

Birder Panjaj Gupta, who is leading the initiative that involves over 200 bird enthusiasts, said the atlas was not about

TICKELL'S LEAF WARBLER

locating rare species but determining the density and distribution of birds. He pointed out that the atlas helps with urban planning and policies.

"Two different teams visit sub-cells of 1sq km spread across 145 sq km four times to omit biases," explained Gupta. "Each team must do birding for 15 minutes each in a randomly selected area such as urban space, farmland, wetland, residential area, etc. Our members will return with 580 completed checklists, of which we have so far received 380 that have recorded 168 species."

Birders pointed out that while general data on birds of Delhi is available in eBird, a database of bird sightings, the problem is that the data is

centred on birding hotspots with little information about the city's greater geography. "The aim is to have an overall view of the distribution and density of birds over a large geographical area. This can help us understand the biodiversity of each area and, thus, assist in urban planning with an ecologically balanced approach," said Gupta.

Sohail Madan, ecologist and director, Wild Tales Foundation, who led surveys in south Delhi areas involving urban, peri-urban and forested habitats, felt that the initiative would transform collection of conservation data in urban environments. "We are generating data that will help us understand habitat changes and the stresses caused by changes in urban settings. Long-term monitoring can guide meaningful conservation action and engage both scientists and the wider community," said Madan.

His checklist marked the oriental honey buzzard in the Southern Ridge forest, Hume's warbler and common rose finch in urban habitats and pigeons primarily in areas under redevelopment, such as Sarojini Nagar. At heritage sites like Qutub Minar, Madan's team sighted the threatened Alexandrine parakeet, highlighting the conservation value of Delhi's historic monuments.

The Delhi atlas will mirror similar projects in Kerala, Goa, Mysore, and Bhalgalpur, showcasing the growing importance of citizen science in addressing India's conservation challenges.

Rahul writes to CM, Nadda over plight of patients outside AIIMS

TIMES NEWS NETWORK

New Delhi: Congress MP Rahul Gandhi has written to Union health minister JP Nadda raising the plight of patients and family members huddled on the footpath outside the AIIMS in the cold, calling it a "humanitarian issue" and urging the Centre to strengthen the public healthcare system in the coming budget. He said the sharp rise in the costs of private healthcare deserves detailed scrutiny. Rahul has also written to Delhi CM Atishi.

In an account of his recent visit to people camped outside AIIMS, Rahul wrote on X, "Recently I saw that in freezing cold these people are forced to sleep in the subway under the metro station, where there is no provision of drinking water or a toilet. There are heaps of garbage lying around. The arrival of such a large number of patients to Delhi AIIMS also shows that people are not getting affordable and good quality health facilities where they live."

Rahul told Nadda that AIIMS-Delhi delivers excellent and affordable services, but the condition of patients and their families shows that healthcare is still out of reach for crores of Indians.

"I urge you to take immediate and timely steps to address the situation at AIIMS-Delhi. The govt of India should work with the AIIMS leadership, the govt of Delhi and charitable organizations to provide heating, bedding, water, and shelter to patients and expand permanent facilities for accommodation," he wrote.

DND operator files review petition in SC over order to ban toll collection

TIMES NEWS NETWORK

Noida: Noida Toll Bridge Company Limited (NTBCL) — the concessionaire for DND Flyway — filed a review petition with the Supreme Court on Sunday challenging its Dec 2024 order that upheld an Allahabad High Court decision to ban collection of toll on the key connector.

Since its inauguration in 2001, the 9.2km DND Flyway — connecting Noida with Delhi's Maharani Bagh — has had a contentious history. The dispute regarding the collection of toll dates back to Sept 8, 2014, when the Federation of Noida Residents Welfare Association (FONRWA) approached the HC, arguing that NTBCL had already recovered its project costs multiple times over.

Records also corroborated that the project cost of around Rs 408 crore had already been collected by 2014.

On Oct 26, 2016, the HC prohibited

The DND Flyway — connecting Noida with Delhi's Maharani Bagh — has had a contentious history

NTBCL from collecting toll charges, but the company retained the responsibility of maintaining the road in keeping with the concession agreement. The court's decision was based on financial records indicating excessive recovery of investments through toll collection.

Call for caution as rapid weight loss leaves man paralysed

Durgesh Nandan Jha @timesofindia.com

New Delhi: AIIMS Delhi recently reported a case involving a man in his 20s, a physical trainer, who was unable to lift the front part of his right foot after losing an alarming 11 kg in just 15 days. Noting this, doctors have warned that rapid weight loss can sometimes lead to a condition known as 'limber's paralysis', causing paralysis in the lower limbs.

"Simmer's paralysis is a rare occurrence, but this case shows such complications can occur and, therefore, one should be wary of undertaking extreme measures to lose weight fast," Dr Vivek Shankar, additional professor in the department of orthopedics at AIIMS, said.

Rapid weight reduction, he added, causes loss of protective fat around the peroneal nerve — a nerve that runs down the outside of the leg, providing movement and sensation to

the foot, toes and lower leg.

"Weight loss does not affect the body's physical structure only. It affects the metabolic system also. If someone loses weight too fast, the body may find it difficult to adapt to the changes leading to serious complications. Slimmer's paralysis is one of them. It has been reported widely," Dr Shankar said.

The AIIMS case has been published in British Medical Journal (BMJ). It states that the physical trainer presented to an orthopaedics outpatient clinic with a "right-sided foot drop of one-year duration".

One year ago, the case report says, the trainer had participated in a professional body-building competition, following which he had a two-day period of binge eating which was predominantly composed of carbohydrates. After this, he developed diffuse swelling in both his lower limbs associated with a sudden increase in his body weight.

While upholding the HC verdict, the apex court in Dec 2024 declared that the concession agreement between NTBCL and state authorities — including Noida Authority — was unconstitutional. The SC also noted that the agreement's terms were "unfair, unjust, and inconsistent with constitutional norms".

According to some estimates, around 1.5 lakh vehicles used the flyway daily before toll collection was banned on it, with cars paying Rs 28 for a single trip and Rs 56 for a return journey. The toll-free status has since increased daily traffic to over 2 lakh vehicles.

NTBCL's primary promoter, Infrastructure Leasing and Financial Services Ltd (IL&FS), declined comment on the review petition. However, sources familiar with the development suggested that the company would argue for compensation for the remaining concession period, which was originally set to end in 2031.

BE WAR OF WORKOUTS

He subsequently underwent an intentional, rapid weight loss of 11 kg over a period of 15 days, following which the foot drop occurred. This weight loss was equivalent to 13% reduction in body weight (0.73kg/day) from his baseline weight of 84 kg.

The trainer did not have any kind of infection or metabolic disorder that could explain the foot drop — difficulty to lift the right foot, tests found, after which the doctors suspected it could be a result of rapid weight loss.

26-yr-old held at IGI with ₹1.35cr forex

A 26-year-old man from Uttar Pradesh has been arrested for attempting to smuggle foreign currencies worth Rs 1.35 crore at Delhi Airport. The man concealed the foreign currency notes under the flap of a black trolley bag and planned to travel to Ras Al Khaimah via Hyderabad. According to Customs officials, the man intended to travel from IGI Airport to Hyderabad on Jan 18 and subsequently, to Ras Al Khaimah by another flight on the same day. "Acting on intelligence, the passenger was intercepted, and an examination of his baggage led to the recovery of foreign currency ingeniously concealed in a black trolley bag. **TNN**

'Police should collect biological evidence in digital rape cases'

TIMES NEWS NETWORK

New Delhi: A Delhi court, while convicting a man for the offence of sexually assaulting an 18-month-old girl in 2021, asked govt to "sensitise" investigation officers to collect biological evidence in the form of nail clippings or fingernail scrapings in all cases of hand-genital contact.

The court of additional sessions judge Babita Puniya said since this was a case of digital rape, the investigating agency should have collected the nail clippings and fingernail scrapings of both hands of the accused, which was not done. "Investigating officers may be sensitised to collect biological evidence in the form of nail clippings or fingernail scrapings in all cases of hand-genital contact because it can provide a DNA profile of the victim and may help the court in arriving at a just decision in the case. In addition, finger swabs should also be collected," said the court in its order dated Jan 17.

The court then directed that a copy of the judgment be sent to the secretary of the union ministry of home affairs and the Delhi Police commissioner for information, compliance and necessary action. It also said if the courts started insisting on direct evidence, all the wrongdoers would go scot-free.

The court was hearing a case against the man who was charged under the penal provision for raping a minor and the Protection of Children from Sexual Offences Act for committing aggravated penetrative sexual assault. Additional public prosecutor Sharwan Kumar Bishnoi submitted before the court that the man was 22 years old at the time of committing the offence in Oct 2021, and his guilt was established through the ocular, medical and forensic evidence.

The court noted that the prosecution proved the incriminating circumstances against the accused, including the survivor's mother hearing the shrieks of the child, finding her daughter in the accused's lap, and the injury on the private parts of the girl. There is absolutely no reason why the mother would falsely implicate the accused as he was a stranger to her, it stated.
